## **Researched Background**

Cathel Photography is semi active on Instagram. With social media being the means to Cathel Photography sharing its work, a Search Engine Optimization is needed. During the research of this business, it is almost impossible to find Cathel Photography on the internet. There are many other businesses that use a similar name. The user must go on Instagram and search for the business because on the internet the user will not find it on one search on the browser. This is a bad user experience. On the other hand, it is a disadvantage for business as well, because they are losing on potential customers and potential site visitors.
